Cork: 20 August

EU General Data Protection Regulation (EUGDPR)

1-Day Intensive Workshop

GuruTeam course code: GTGDPR

Course Overview

The EU General Data Protection Regulation (GDPR) is new legislation that provides a single, harmonised data privacy law for the European Union.

The GDPR has replaced the old Directive and is directly applicable from 25 May 2018 in all Member States. The GDPR will affect every organisation that processes EU residents' personally identifiable information (PII).

This EU General Data Protection Regulation (GDPR) training course also imposes obligations on companies to not only document and safeguard information on identifiable living persons but companies must also be able to evidence compliance

With the increasing risk of data breaches and cyber-attacks, the GDPR aims to prevent the loss of personal data by improving data security for all individuals living in EU member states.

What this course provides

This is a comprehensive one-day course which will provide attendees with a clear understanding of the new law and the practical expectations required from companies and staff who process personal data under the new EU GDPR.

This course will assist attendees in understanding how to prepare their organisation for the changes and how to facilitate, accommodate and implement the new requirements. It will also show how to embed the concept of best practice within day to day behaviours and how to communicate that to others.

This course will explain the new rules regarding the legal basis for processing, consent, privacy notices, control of personal data, mandatory breach reporting, complaints and penalties as well as practical guidance on what organisations can do to remain compliant.

Target Audience

This GDPR course is ideal for professionals who handle personal data and who need an overall understanding of how GDPR will affect their business.

Key people mainly include :

- Business Directors and Managers
- Data Protection Officers
- IT Managers
- Project Managers
- Accountants and HR Managers
- Health and Safety Management
- Risk and Compliance Managers
- Marketing Managers

About Course Presenter

Cormac Clancy - Barrister

Course Presenter – Cormac Clancy – practises at all levels in the Irish Courts for individuals, partnerships, SMEs and multi-nationals. He has a background in customer relations and management.

He is a Certified Data Protection Practitioner (Law Society of Ireland Diploma School) and has been advising on and been involved in data protection matters for several years, both as lawyer and consultant.

He presents workshops and training courses for the Data Protection Group, and speaks at data privacy events, such as INM's Dublin Data Sec 2018 in the RDS and the Government Administration and Procurement Summit 2018 in Citywest.

You will receive

On completion of this course, you will receive full course documentation, lunches and refreshments as well as course attendance certificate. Please note that there is currently no recognised GDPR accreditation.

SCHEDULED DATES 2018

Dublin: 21 August
Cork: 20 August
4 October *(More dates to come)*
