Advanced Java Customised Course
Feb ‘18

Excellent opportunity to learn more on latest Java API’s and features.

I found the training very detailed and worthwhile. I consider myself to have gained a better understanding of the underlying behaviour of the JVM. Another huge benefit of this training was the level of detail given to Garbage Collection.

Optimising Java

This was the best training course I have ever attended. The instructor had massive and wide experience and presented this well. Practical application was emphasised. Incremental adoption of the method was covered, along with modified more palatable versions. Loved this, looking forward to implementing.
